

To whom it may concern,

Our company has had the pleasure of working with Kennect Phoenix for the past year. Every summer, Barrow Neurological Institute hosts a three month internship for undergraduate college students. This program is offered internationally and nationally with roughly 40 students being accepted every summer. Due to this program being offered to those outside of the state, BNI's ongoing issues were trying to establish housing for those that come out of state and internationally. The summer of 2022 we were connected with Kennect and it was everything we could have asked for.

With our program being three months, we needed accommodation that was all inclusive to all household items (furniture, linens, utensils, cooking wear, etc.) for those students coming from out of state. Kennect was the only complex that provided all this to our students at an affordable rate. Even more, the housing was exceptionally clean, organized, and well maintained with additional social gatherings and fun opportunities for the interns to share. We were extremely grateful that the interns were able to enjoy high class, community based, living during their internship.

Karen Conte was our direct contact with Kennect and we are continually taken care of by her and her team. Karen played an integral part in ensuring that our students, especially our international students, were taken care of, safe, and finding enjoyment at the apartments. Karen and her team were quick to respond to any issues that arose and aided in every transitional process that took place during our contract.

We are so grateful for Kennect and their amazing team! We will be continuing to use them for our summer programs and would highly recommend their services to other companies that provide internships, educational opportunities, or are just in need of short term all-inclusive housing in the downtown Phoenix area.

Sincerely,

Karis Anderson

Program Manager – Student Research Education
